A Ban on permitted Open Burning is in effect for the Daisy Mountain Fire District Until September 30, 2020.

Due to the high fire dangers caused by the combination of high fuel loads, increasing temperatures and frequent high winds, DMFD is prohibiting any permitted open burning within the Fire District area.

Maricopa County Department of Air Quality regulates all outdoor fire activities and places restriction on when they are permitted. Please see their web sites for further information.

**Outdoor woodburning fires:**
Fires for the following purposes are prohibited from May 1st until Sept 30th in Area A of Maricopa County. This area includes the Daisy Mountain Fire District and the following woodburning fires are restricted:
- Warmth for human beings
- Recreational purposes
- Wood-burning chimeneas and outdoor pits

**Cooking Fires:**
Cooking fires must use gaseous fuels or clean, charcoal or dry wood. Fires for cooking are allowed on a No Burn Day if the fire is used to cook, smoke, or flavor food for immediate human consumption, and all the following requirements are met:
- Cooking fire is constantly attended.
- Begin cooking without delay once the fire is established.
- Extinguish the fire without delay once all parts of the food are suitable for human consumption.

The use of propane, natural gas, or other gas producing barbeques or fire pits may be used if they in an enclosed device, constantly attended and can be turned off.
